## School Overview

Buranda State School is an inner-city school in Brisbane, Queensland, catering for children in the first eight years of their schooling. There are approximately 250 students in ten multi-age classes. Students at Buranda consistently perform above the state and national means in systemic tests. This is evidenced by the first two years of the NAPLAN tests and the Qld Year 3/5/7 tests. Buranda State School strives to develop a culture of good thinking. All children participate in philosophy classes, where they discuss the big questions of life. They are taught the intellectual skills of inquiry in order that deep and clear thinking can occur at all times. The student population reflects the diversity of the local area. This includes a wide range of socio-economic groups, family structures, cultural groups and religious backgrounds and beliefs. Approximately 8% of the students are ESL, including refugee families. There is a ratio of four boys to every three girls. Buranda State School is well supported by the school community.

## Principal's Foreword

### Introduction

#### School Progress towards its goals in 2017

##### LEARNING

All teachers continued to implement the philosophy in schools program. Teachers continued to plan, develop and implement units of enquiry that align National Curriculum in 2017 (C2C).

All teachers:

- Implemented literacy, numeracy and science and HASS units aligned with the National Curriculum.
- Implemented strategies to support the effective implementation of the Australian Curriculum C2C

The school continued to enjoy good support from members of the school community at events conducted throughout the year.

Students successfully participated in an interschool sports program with neighbouring state schools- the Budgie Cup.

## **WORKFORCE**

Teaching and non-teaching staff participated in identified professional development and training opportunities.

All staff were provided with on-going professional development and support regarding the Teaching of Philosophy on purposeful and successful teaching and learning. Continuation of school specific programs- philosophy in schools and environmental education.

## **Future Outlook**

In 2017 Buranda students achieved mean scores above or 'statistically significantly' above both the State and national means in most areas tested in NAPLAN tests.

The staff will direct further energy to the consistent teaching of writing across the school. A school writing framework will be published in the coming 12 months.

The school has continued a project with Cavendish Road State High School, Holland Park and Seville Road State Schools, to implement the Philosophy in Schools Program (Critical, creative and caring thinking) from Prep-12. Buranda SS provides strategic and programming input, delivering staff training and providing coaches to the partner schools.

Staff continues to be very happy working at Buranda State School.

## Curriculum Delivery

### Our Approach to Curriculum Delivery

- **Philosophy** is taught from Prep to Year Six. This is a literature-based program designed to develop critical, creative and caring thinking. We have found that it has a positive impact on academic and social outcomes for our students. The children participate in ordered, rigorous discussions about topics which are important to them and for which there may be many answers that could be considered correct. They are encouraged to develop hypotheses, give examples, build on each other's ideas, give reasons, justify decisions, recognise inconsistencies in arguments and so on.

- **Environmental Education** is taught across all year levels. The children participate in activities involving the school garden and Norman Creek. These include caring for chickens, growing and selling vegetables, revegetating the banks of the adjacent creek, and learning about the principles of sustainability. The related ethical issues are discussed in philosophy sessions, where children ponder questions such as 'Is progress always a good thing?' and 'Does every creature have the right to a home?'
- Most classes are mixed age. All classes use cooperative group strategies and provide opportunities for the development of independence in learning. In this way, the needs of learners are able to be met within each classroom context, whether those needs be for extension or extra support.
- Early Literacy and Numeracy programs operate, as well as support being available from English-as-a-Second-Language and other Advisory Visiting Teachers.

### Co-curricular Activities

- Instrumental music is now conducted as part of the Buranda State School program. Students participate in lessons and band practice here at school. This new initiative builds on the program developed in conjunction with Coorparoo Secondary College over the past decade.
- Interschool sporting activities are undertaken on a non-traditional basis by students in Years 4 – 6. Schools in the regular competition include East Brisbane and Greenslopes and Dutton Park.
- School Choirs-Junior and Senior. The school music teacher conducts both Junior and Senior Choirs at school to interested students.

### How Information and Communication Technologies are used to Assist Learning

Technology is used to support classroom activities, for both seeking and managing information. All classes at Buranda State School have at least four computers available for student use. These receive constant use as children research, email, undertake curriculum programmes and word process.

The school also enjoys the use of a computer lab within the resource centre. Teachers and students have enjoyed incorporating interactive whiteboard technology into regular Classroom learning.

Computers are seen very much as a tool for learning. The Learning Place has provided a rich platform on which to develop further ICTs competency for teachers and students, with many accessing blogs and other spaces to good effect.

The school has implemented the use of iPads for student use.

## Social Climate

### Overview

Buranda State School is a place where children enjoy their learning. Where they wonder, imagine, question, puzzle, speculate and think. Where children are considerate of one another, where they work together to solve problems, and where there is little or no bullying. It is a place where children enjoy success, both academically and socially. There is a lovely calmness and sense of purpose about our school.

To participate in a philosophical community of inquiry, children are taught to listen to one another, and to consider the ideas of others. They are taught to explore disagreement respectfully. These skills then transfer into other areas of school life, both within the classroom and outside of it.

Teachers endeavour to always give children a fair hearing. To really listen to the point of view of all stakeholders and to collaborate with students for a reasonable, agreeable outcome.

### Parent and community engagement

The programs at Buranda State School reflect the values and beliefs of the school community. Of particular note is the positive feeling towards the teaching of philosophy.

Parents are welcome at Buranda State School, and there is a high level of community involvement.

This is apparent across all grades, but is most pronounced in the junior classrooms. Parents by hearing reading, assisting group work and excursions, etc. They are also invited to identify any area of expertise they may be prepared to share. At the culmination of a unit of work, parents are invited to the classrooms to share the 'learning journey'.

The school has a supportive Parents and Citizens Association. This groups raises funding to support the school program and facilities.

Students go into the community for activities such as the following:

- to undertake environmental education lessons at the local creek
- to undertake joint activities with Narbethong Special

### Respectful relationships programs

The school has developed and implemented a program/or programs that focus on appropriate, respectful, equitable and healthy relationships. Respect, care and diversity are all explored in detail through the philosophy in schools program. Children develop a sense that they are thinking and working democratically through Philosophy in Schools activities, this has significant impact on the development of respectful relationships. Aspects of pastoral care are also targeted through the Philosophy in School program.

### School Disciplinary Absences

The following table shows the count of incidents for students recommended for each type of school disciplinary absence reported at the school.

SCHOOL DISCIPLINARY ABSENCES			
Type	2015	2016	2017

## Environmental Footprint

### Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns. The introduction of sustainable practices has greatly influenced student learning and behaviour in the past few years.

Projects that the school is actively engaged in include:

- Cultivation and harvesting of food crops
- Ongoing involvement in the Brisbane City Council's Active School Travel Program
- Litter-free Wednesdays
- Mobile phone recycling
- Composting and recycling

ENVIRONMENTAL FOOTPRINT INDICATORS		
Years	Electricity kWh	Water kL
2014-2015	81,739	5,899
2015-2016	99,392	3,132
2016-2017	143,332	4,068

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.
